

Editing Files

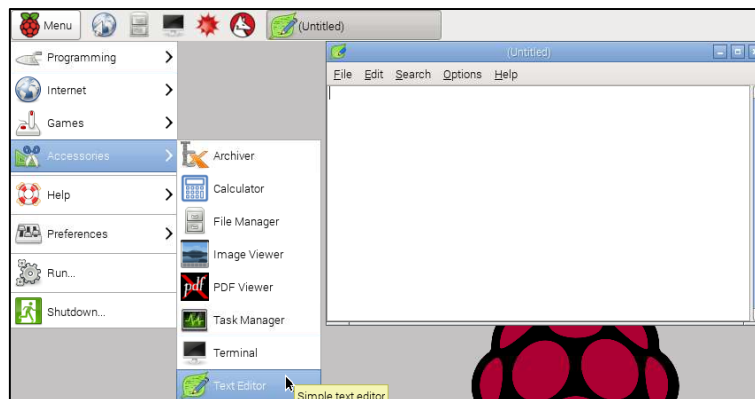

Editing Files

Card 1 of 1

I'm Learning Pi Basics

1 Can you find and open the **text editor** program on the main menu? (*Hint: It is under the Accessories sub-menu*).

2 You can type any text you like into the file.

3 When you are finished typing you would like to save the file. Click the **File** menu, then the **Save As** menu item. This opens the save as dialog

3 You can choose a location and name for the file (which should use the format YourFileName.txt) then click **save**.
